

NEO2™

The Only Laptop Designed for Classrooms™

Bring More Excitement to Writing—and to Every Subject

Now you can generate excitement for writing that other teachers can only dream about! NEO 2's ease-of-use and built-in writing tools make writing so much easier and more enjoyable for your students. What's more, NEO 2 makes it easy to assign, collect, edit, and disseminate your students' work, making managing the writing process a joy for you.

NEO 2 includes everything teachers love about the original NEO 1, including a full-featured word processor, a keyboarding instruction program, hundreds of writing lessons, and an easy-to-use classroom management tool. And, just like the first NEO, this one starts up in seconds, runs up to 700 hours on three AA batteries, and costs one-third of what typical laptops cost.

Use NEO 2 Across the Curriculum—All Day, Every Day!

NEO 2 offers you a variety of new features that make it perfect for use in virtually every academic subject:

- **Instant Assessment Functionality**—2Know! classroom response system functionality allows you to ask students multiple choice, true/false, yes/no, numeric, and even short answer questions.
- **Wireless File Transfer**—NEO 2 works seamlessly with documents in Google Docs™, Google's document, spreadsheet, and presentation program. This enables students to save their NEO 2 files to a secure site and access them later via any Web-enabled computer or another NEO 2.
- **Accelerated Reader Quizzing**—Students can take AR Quizzes right from their desks, so they'll spend more time reading books and less time waiting for a computer.*
- **MathFacts in a Flash**—NEO 2 runs MathFacts in a Flash software to help students achieve computational fluency and mastery of math facts.**
- **Text2Speech**—By purchasing an easy-to-use add-on device, NEO 2 allows students to convert any written text into spoken words to improve writing, expression, fluency, and grammar.
- **Wireless Printing**—Students can print their writing assignments to the classroom printer without leaving their desks.

* Requires a Renaissance Receiver and Accelerated Reader Renaissance Place v7.5.

** Requires a Renaissance Receiver and a MathFacts in a Flash Renaissance Place subscription.
